

# ACTIVITY REPORT 2023

---

● Operation of the early childhood auxiliary training centre in Guié ● Support for our pilot farm and construction of a primary school in Filly ● Funding for the Ruralies ● Construction of three boreholes and two wells in Yatenga Province ● Contribution to AZN's operating costs ● Dispatch of a container ● Sponsorship of 91 children (self-financed) ● Electrification and incinerator for the Goema dispensary ● Borehole in Faaga-Boulporé

In the Goéma region, in the Centre Nord, our dispensary/maternity clinic has been completed and fenced off. We have added electricity, an incinerator and a water tower.

At our farm in Filly, in the north of the country, we have financed a borehole and a water tower, built a shed for agricultural machinery, accommodation for an assistant farm manager, latrines for visitor accommodation, developed a market-gardening area and reinforced three dykes in the villages. We have also financed the annual Ruralies, which reward and encourage the farmers of Filly and the surrounding area. We built the Filly primary school for 120 pupils. In the northern province of Yatenga, we have built 3 boreholes and 2 wells in 5 villages so that people displaced by the conflict can settle down and work the land. Thanks to our sponsors, we have provided 91 children in the Province of Oubritenga with a decent education.

Mission Enfance's annual contribution to AZN/Terre Verte will have enabled us to support training at EFAPE (Ecole des auxiliaires de la prime enfance), to clear our container through customs in May 2023, to finance AZN's coordination and health projects and to contribute to the running of our partner Terre Verte. It's difficult to get out into the field, as foreigners are not allowed to travel outside the capital, Ouagadougou.

## School sponsorship in Ho Chi Minh City and renovation of a school

We are continuing our sponsorship programme for 176 godchildren in our 5 centres in the capital. It should be noted that we are seeing more and more of our sponsored children go on to university, proof of the excellent educational work carried out in our school centres run by the Daughters of Charity. We have renovated the Bétania school for 80 children.

**TOTAL BUDGET COMMITTED:**

95.265 €

**BENEFICIARIES:**

660 children and teachers

● Construction of Phou Ding Deng and Bane Lao primary schools ● Construction and fitting out of a computer room in Phou Mone secondary school ● Construction of Houay Soy primary school and Done Talath secondary school ● Support for teachers in our schools

Again, in the Champasak region, on the Boloven Plateau, we have built two primary schools in Phou Ding Deng and Bane Lao for isolated children. Each new school is complemented by the distribution of school furniture, school and hygiene kits to pupils and teachers, and the construction of a sports field. We have also provided food and financial aid to pupils and teachers in our 30 schools.

- Emergency aid for the Lebanese population
- Educational support at our centres in Roueisset and Deir Al Ahmar
- School sponsorship for 180 children

In Lebanon, Mission Enfance's local teams have been busy for the fourth year of emergency aid, with 80% of the Lebanese population living below the poverty line since the economic crisis. Through our many centres and schools in Roueisset and Deir al Ahmar, we have been able to tailor our support to families, teachers and pupils - electricity and heating bills, rents, food, hospitalisation for 150 families, and 500 children 500 Lebanese and Syrian children have benefited from educational support. For the start of the new school year in September 2023, 251 children received a €200 grant to pay for their school books in Roueisset and Deir Al Ahmar. At St Vincent's school, 215 pupils received their school books, 170 families received funding for their children's schooling and 676 families received food vouchers. 120 families from the Saint Jean-Paul II parish received food support during the year.

67 teachers and staff at the Saint Charles school in Achrafieh received additional salaries.

We continued our school sponsorship programme for 180 children via our 5 centres in Beirut and the surrounding area, including the Bekaa. We also financed university credits for many students in Beirut. We provided all the school equipment (books, kits, etc.) for the pupils of St Vincent de Paul.

*Children's schooling supported by school sponsorship*

## ● Emergency aid for victims in Nagorno-Karabakh ● School sponsorship.

In September 2023, 120,000 Armenians from Nagorno-Karabakh fled their country to take refuge in Armenia following Azerbaijan's assaults. They lost everything, their land and their homes. Mission Enfance provided aid (warm new clothes, hygiene products and food) to 600 people via our Endanik centre in Gyumri. We continued to sponsor 213 children in the two Boghossian and Endanik centres in Gyumri, focusing on support for refugee children from Karabagh.

## TOTAL BUDGET COMMITTED:

110.000 €

## BENEFICIARIES:

8.000 people

# FRANCE/MONACO

## ● In-kind support for migrants in Ventimiglia

We supplied the migrants in Ventimiglia with 2 tonnes of medical equipment, second-hand clothes and toys twice a month.

- Support for our 7 toy libraries,
- Training toy librarians and setting up our travelling toy libraries.

Our toy libraries, located in 5 regions of Colombia (Bogota, Choco, Boyaca, Amazonia), have enabled 13,000 children throughout the country to enjoy their childhood. The travelling toy libraries have continued in Amazonia, Choco and La Uvita, giving isolated children a window on the world and an opportunity to learn through play. Thanks to our toy library in Zaragoza, in the Amazon, we have been able to support the children of Peru, many of whom have been abandoned by their parents, who work in the coca fields and live in miserable conditions without an education. The importance of our toy libraries is fundamental in a new context of extreme violence linked to the impoverishment of the population.

*Reaching out to the most isolated*

*A committed team*

*Support for underprivileged families*

- Support for our cultural and educational centre,

Our annual endowment enables us to pay the salaries of the teachers and to finance the educational and recreational materials for the children at our Cultural and Educational Awakening Centre in Assayta, in one of the hottest deserts on the planet, where the violence of the conflict between the Tigrayans and the Ethiopian authorities is felt far and wide.

- Running our educational centre for the Yezidis in the Sharya camp,
- Support for female students in Qaraqosh,
- Completion of the Itout school.

In Qaraqosh, we continued our support for Chaldean and Yezidi female students in Mosul, funding their transport, accommodation and food. Our education centre in the Sharya camp educates 600 displaced Yezidi children in Iraqi Kurdistan. The situation is very unstable in the Sinjar region, so the Yezidis prefer to wait for a lull in the fighting in the camps in northern Iraq. We have completed the construction of the Itout school for 1,000 displaced pupils in Iraqi Kurdistan, which will be inaugurated by the French Consul and the Mission Enfance team in July 2023.

*Visit from a displaced Yezidi family in Iraqi Kurdistan*

- **Support for Dr Belqis' dispensary and our pupils and teachers in Mazar-e Sharif**
- **Rehabilitation of the Don-e Rewat school.**

Education: Our 8 primary schools in the Panjshir valley were up and running. With 6 hours a week of Koranic lessons in our Don e Rewat secondary school, which we renovated in 2023, our female baccalaureate students were able to resume their studies, hidden behind a curtain. On the other hand, our female baccalaureate students at the secondary school we built in Mazar-e Sharif, in the north of the country, had to interrupt their studies...

Health: Dr Belqis treated malnourished women and children free of charge at a rate of 35 consultations a day in his dispensary in Kabul, thanks to financial support from Mission Enfance.

*Compulsory dress for the few girls tolerated in our schools*

*Consultation by Dr Belqis*

● **Emergency aid for the victims of the February 2023 earthquake** ● **Operation of 3 educational centres** ● **Teacher training** ● **Support for Al Farj high school**

The earthquake of February 2023 caused 6,000 deaths. Mission Enfance carried out 3 emergency missions during the year, handing out financial donations to 600 families (around 3,600 people) in villages destroyed in the mountains along the Syrian coast, as well as in Lattakié and Kassab. We renovated the Ain Haïate primary school for 80 isolated pupils (paint, stoves, doors and windows) and provided school supplies for 3,000 pupils. We supported Saint Louis Hospital in Damascus by funding operations for 200 patients. A donor supported a family affected by the earthquake for a year.

The Al Farj school received support for its 250 poor pupils, solar panels to compensate for the 5 hours a day of electricity and built a playground for the pupils. 600 children from our 3 centres received support to repair their homes. Once the furniture had been repaired, the 3 centres, Zekezkanié, Homs and Besnada, welcomed their pupils back. We financed the training of 30 teachers during the summer of 2023. We have provided funding for a summer camp for young people in Damascus.

*Financial aid for earthquake victims*

*Distribution of school supplies*
